

THUMBNAIL SKETCH O. L. A. CANDIDATE

For the fourth consecutive time O. L. McPherson, known throughout the province and particularly in the Vulcan district as "Tony" McPherson, will contest the provincial constituency of Little Bow under the U. F. A. standard.

Mr. McPherson was born in Kingman, Kansas. Following the death of his father, the family moved to Illinois, where Mr. McPherson lived on his uncle's farm. He received his early education at a country school, and later worked his way through Shurtleffe College, and two years towards the degree of B.Sc., at the University of Illinois. During his university days he took a prominent part in debating and athletic clubs, and these interests and his studies, in addition to the necessity of working early and late to pay his way, resulted in a breaking down in 1906.

In that year he first came to Alberta, liked it so well that he decided to make it his home, and in 1908 returned and commenced farming operations on what is still the McPherson farm.

From his earliest days in Alberta, Mr. McPherson took an active part in the life of his community. He was a strong believer in co-operation and

O. L. McPHERSON

still believes that through co-operative societies, the farmer must continue to fight for his objectives.

He became a member of the U.F.A. in 1910 and in 1919 became president of the first Bow River Political Association. Later in the same year he became president of the first Provincial Political Association formed by the farmers of Alberta.

In 1921 he was chosen to contest Little Bow when the United Farmers of Alberta entered the political arena. He was elected, and chosen as speaker of the House, "which position" he held until 1927 when he entered the U.F.A. cabinet as Minister of Public Works.

In 1926 he was re-elected by Little Bow, and in the 1930 election, was given an acclamation.

As Minister of Public Works, Mr. McPherson did much to add to his reputation as an efficient administrator, and it was under his administration that the present highways system of Alberta was planned and built.

Mr. McPherson is still known as a powerful debater, and while he admits he doesn't care much for making speeches, has always enjoyed a good debate whether in the House, or on the public platform.

Recognized as a force with the U. F. A., Mr. McPherson has a reputation for a blunt honesty and a steadfastness of purpose which causes him to stick to his principles and convictions, regardless of political consequences.

U. F. A. MEETING MONDAY, AUG. 19th

O. L. McPherson, U.F.A. candidate, will address a mass meeting in the Vulcan theatre on Monday evening. This will be Mr. McPherson's last appeal to the electors in Vulcan, the other two days before election day being utilized for meetings at other points in the constituency. An advertisement will be found in the advertising columns with full particulars.

Henry Vermearck Dies; Ill Nearly Two Years

Henry Vermearck died at Vulcan on Wednesday, August 7th, following a lingering illness. He was 47 years of age. Cause of death was cancer. Mr. Vermearck was born at Nazerth, Belgium, on July 4th, 1888. Ten years ago he came to Canada, becoming a naturalized citizen of this country. Before ill health forced him to retire from active work, he was a miner and had worked at this occupation for 15 years. After coming to Canada he settled in Vulcan, and carried mail for a short time. Later he worked in the Champion coal fields. During the month of September, 1933, he was forced to stop work due to his health. He, with Mrs. Vermearck, came to Vulcan, and have since that time resided here. He leaves to suffer the loss, his widow, Mrs. Mary Vermearck. Funeral services were conducted from the Church of Christ, Vulcan on Thursday, August 8th, at 2 p.m. Interment was made in the Vulcan cemetery.

Hail Strikes Vulcan Crops for Second Time

On Saturday afternoon, between three and four o'clock, hail struck the Vulcan district crops for the second time this season. Three weeks ago, in the Red Cross territory, damage was reported from 40 to 80 per cent. This time the hail clouds let down the element in the Thigh Hill district, working and thinning out towards the Reid Hill section. The storm came from the north and hit first above five and a half miles south-east of Vulcan. It was a type of storm that could be termed freak, for it ran in strips and jumped fields, time after time in a hit and miss fashion. The storm seemed to centre on farms near and close to those of O. B. Roe, Lundgren, Z. Deal and Mr. Clifford. Some fields in this section were hailed 75 per cent, but the average would run about 20 per cent. As the storm worked eastward, it lowered in intensity, the damage running from 5 to 20 per cent.

District Women's Institute Conference Held at Champion

Next Year's Convention to be Held in Vulcan; Many Vulcan Members on Standing Committees

At the seventeenth annual conference of Little Bow constituency of A.W.I. held in the community hall, Champion, on Wednesday, August 7 Mrs. A. A. McQuarrie, Barons, was elected Constituency convenor to succeed Mrs. J. D. Hagerman, Kirkcaldy, retiring officer.

The seventy-five members in attendance at the conference, were honored by the presence of two federal members, Mrs. J. P. Ferguson, Trochu, and Mrs. F. G. Grevett, Calgary. On the platform also were Mrs. M. L. Thompson, Coaldale, district director, Mrs. J. D. Hagerman, pre-riding officer and Mrs. F. C. Alcock, Champion, past district director.

Following the invocation, which was given by Mrs. Alcock, an address of welcome from the mayor, Mr. J.H. Higgins was read by the secretary. Mr. Higgins commended the Institute for having maintained the interest of their members through these difficult years by their educational programs, and other activities of the organization.

Mrs. J. N. Beaubier, past provincial president, in an informal speech, bade the delegates welcome to Champion as to a big family gathering. Mrs. J. Marshall, Vulcan, replied on behalf of the visiting delegates. Community singing which interspersed the reading of reports, was led by Mrs. M. L. Todd, Thigh Hill, accompanied by Mrs. R. C. Clements, Kirkcaldy. Vocal solos were contributed by Mrs. A. S. Roberts, Barons, Rev. Peter Dawson and Mr. Joe McNaughton, Champion, also a musical monologue by Miss Beverly Roberts, Barons, providing pleasing interludes on the business program. Outstanding reports were given by the chairman of standing committees, especially Education and Better Schools, by Mrs. A. J. Kennedy.

Mrs. Hagerman, Constituency convenor, reported interest and enthusiasm in the branches, and urged all who could to attend the district and provincial conferences. Reference was made to the Home Bureau Service, of which Miss Isabel Alexander is the newly appointed director.

Mrs. M. L. Thompson, district director, speaking on "The Power of Emotion," traced the changed conditions and the attitude of man toward womanhood from the earliest ages until she had now reached the final goal of comradeship with equal rights. "Woman has played her part in Red Cross, Institution and Nursing, Abolition of Slavery, Child Labor and Slums, Prison Reforms, the cause of Temperance, Salvation Army, etc. The future centre of power is in woman. Emotion is the ideal and such a force cannot be checked. Women

C. S. Hall, Former Citizen Vulcan, Dies at Victoria

A clipping from the August 4th issue of The Victoria Colonist has been received by The Advocate from our good friend J. B. Ross of Carmangay recording the death of Clyde Silas Hall, aged 55 years, formerly of Vulcan, and for the past eight years of Victoria, B.C. Mr. Hall died at the Royal Jubilee Hospital, Victoria, on Saturday, August 3rd, following a lingering illness. He was a native of Auburn, New York, and for some years before taking up residence at the coast conducted a hardware business. While a resident of town he took part in the community life and created a wide circle of friends that will regret his passing. He was a member of the Vulcan Masonic order. He leaves to mourn his loss his widow, residing in Victoria, and one brother, Clarence J. Hall of Trail, B.C.; a sister, Mrs. Cornelia Nicholls, residing in Nedrow, New York. Interment was made in the Colwood Burial Park, Victoria, on Tuesday, August 6th; under Masonic auspices.

THREE CANDIDATES FILE NOMINATION PAPERS

Official nominations in the Little Bow riding were filed on Monday at 2 o'clock, as they were throughout the province. No last minute surprises were registered and the nominations in this constituency went as anticipated. Nominations were, as follows: O. L. McPherson, former Minister of Public Works, farmer, Vulcan, U.F.A.; Rev. Peter Dawson, clergyman, Champion, Social Credit; L. H. Stack, K.C., barrister, Vulcan, Liberal. Nominations were announced by H. S. Parker, returning officer, Carmangay.

G. G. COOTE, M.P. WILL SUPPORT CANDIDATURE O. L. McPHERSON

This evening, Thursday, G. G. Coote, M.P., U.F.A. candidate for the Macleod Federal constituency, will address a meeting at Milo in support of the candidature of O. L. McPherson, who carries the U.F.A. banner in the provincial election race in Little Bow. Mr. McPherson will also speak at this meeting. A meeting was held at the Sunset Valley school this afternoon. To-morrow night Mr. McPherson will address the electors at Arrowwood and on Monday he will address a mass meeting in the theatre at Vulcan.

Additional Local News Will Be Found on Pages 3 and 4

O. L. McPherson Attacks Social Credit Proposals

Claims Whole Idea a Fantastic Thing at Berrywater Meeting, Saturday; Kaps Liberals for Monetary Reform As a Provincial Issue

"If there is any difference between a tax and a levy, the compilers of dictionaries don't seem to know it," O. L. McPherson told a Berrywater audience on Saturday night. The only difference seems to be that 'Levy' is a stronger word than 'Tax.' When Mr. Aberhart says he is going to collect the amount of the basic dividends by a levy on imports and an unearned increment levy, I say he means to tax you. Don't take my word for it. Look it up in the dictionary and see for yourself."

Mr. McPherson said Mr. Aberhart had made two distinct proposals for paying the basic dividends. The first by taxation; the second by issuing non-negotiable certificates (which would in reality be provincial paper money) against credit entries in a ledger, and that this would result in a terrific inflation, with the \$25 dividend having less and less purchasing value as time passed.

Dealing with the first, Mr. McPherson referred his audience to May 3 issue of the Social Credit Chronicle and other public statements by Mr. Aberhart, to the effect that the basic dividends would have to be "recovered." He said Mr. Aberhart had said this could be done by a tax on imports similar to the gasoline tax.

"Who pays the gasoline tax?" the speaker demanded. "Every car owner pays it. If he is going to recover the amount of the dividends in the same way, what good will it do you? If he first gives you the dividends and then collects it back for a second distribution, by putting a tax on the imported goods you have to buy, will your dividends do you any good? It is like putting one dollar in your hand at the same time reaching into your pocket and taking another dollar bill out."

In the blue manual, recently published, Mr. Aberhart tells how he will collect the unearned increment on goods imported into the province. He will begin with the invoice and add the unearned increment. This means that he would collect a sum over and above the present price, on every commodity brought into Alberta. "Well, he calls it an unearned increment levy," Mr. McPherson commented, "but when Mr. Bennett does the same thing on goods imported into Canada, we call it a customs duty, and we don't like it!"

Mr. McPherson said that on June 14, Mr. Aberhart had said that if the world price of wheat was \$1.00 and the just price 60 cts., the government would take half the profit. "If that is what he is going to do, I don't believe you farmers will care much whether he calls it a tax or a levy," the speaker said, dryly.

The speaker thought the whole thing fantastic. Mr. Aberhart, he says, proposes to take \$120,000,000 for dividends alone, out of a province whose total average income for the past years has been \$180,000,000. At the present time the government has

(Continued on the Back Page)

WEDDING BELLS

FULTON—BURNS

A wedding of much interest to the younger set was solemnized at the United Church, Red Deer, Thursday, August 8th, at 6 o'clock, when Miss Dorothy Burns, youngest daughter of Mr. and Mrs. Robert Burns of Milo, was united in marriage to Mr. Charles Fulton, son of Mr. and Mrs. J. Fulton of Vulcan. Rev. Smith officiated at the ceremony. The bride was attractive in a floor length gown of pink and blue satin with white bridal net jacket. Only immediate members of both families attended the ceremony. An informal reception followed.

At the Reid Hill school on Monday evening a local reception was held. Mr. and Mrs. Fulton will reside in Vulcan.

Municipal District of Royal Will Seize Crops For Arrears of Taxes

Monthly Meeting Business Includes Court of Revision; A Number of Assessments Revised

A regular meeting of the council of the Municipal District of Royal, No. 158, was held in the municipal office, Vulcan, on Saturday afternoon, August 10th. Reeve Bennett was in the chair and all councillors were present. Deputy Reeve Snow was re-elected deputy reeve for the next six months by acclamation.

First business of the meeting was the revision of assessments. The council constituted itself into a court of revision and a number of complaints were heard against the 1935 assessment. By resolution a number of assessments were reduced. These included the C.P.R. station properties at Kirkcaldy, Ensign and Brant. Two private assessments were reduced. Only one assessment was upheld.

D. McLiment appeared before the council and requested that he be given relief for the month of August. A motion was made to give this relief but was lost.

A large number of accounts were paid on a motion by Mr. Lundgren. Following pay sheets were passed for payment on motion by Mr. Bateman: Division No. 1, \$245.20, \$248.00; \$3.90, \$7.80; Division No. 2, \$21.60, \$7.50; Division No. 3, \$105.30, \$259.65, \$22.95; Division No. 4, \$16.80, \$20.40, \$39.40, \$16.20; Division No. 5, \$9.60, \$9.00; Division No. 6, \$8.80, \$231.00; Hopper Station \$92.53; Grader crew \$22.08.

It was resolved that Mrs. Vanbeisan's offer of \$50 for the scales at Brant be accepted.

Offers of \$100 each from E. Altizer and D. E. Lilly for the Rumley tractor were considered. It was resolved that the Rumley tractor be sold to the first offer of \$100 cash.

The secretary read a letter from the Department of Municipal Affairs with reference to the new road construction contracts. It was resolved that the contracts be tabled for the present.

An application for payment in cash in full for road work was received from four ratepayers and it was moved and passed that the total amounts earned be paid in cash. Other applications were received for two-thirds of the amount earned for road work be paid in cash. This was moved and carried as a resolution.

It was moved by Mr. Spaeth that the grasshopper poison mixing station be left installed in the building owned by the Imperial Hotel, and that Mr. Bennett be allowed the sum of \$30.00 for looking after the mixing station during the 1935 campaign. The motion carried.

Two applications for relief were received. It was resolved that the two applicants be granted \$5.00 temporary relief.

A letter from the relief branch regarding a relief applicant was read. In this case it was resolved that relief in the sum of \$10.00 per month be authorized.

It was moved by Mr. Bennett that the district seize crops this fall is in the past, and that the ratepayers be given the opportunity to call at the office to accept seizures personally to save themselves expense, and that Saturday, August 24th be the last day on which they may call. The motion carried.

It was decided that the council hold a special meeting on Saturday, August 31st at 8 p.m.

J. R. Duguid interviewed the council with regard to Albert Nettmay, a 14 year old boy who is without a home. Arrangements to place the boy in a suitable home, were made. The meeting then adjourned.

Message to Electors From L. H. Stack, Liberal Candidate

To the Electors of Little Bow Riding: In the coming Provincial election, please bear in mind that what we need in this province is a stable government which will give people confidence in the administration to look after their interests to the best advantage; confidence in themselves to meet the present readjustments; and will give those outside Alberta, confidence in the administration to fulfill the obligations of the province and to make it possible to do business with us, either in merchandising, industry or in provincial business.

The strong program of the Liberal party provides this type of government as it is made up of the considered opinion of persons from all parts of the province, engaged in every form of occupation and industry, irrespective of all political leanings.

The program has been presented through the press, over the radio and from the platform in this riding, and is concerned primarily with a re-organization in administration in order to eliminate overlapping, with its consequent waste. It includes a vigorous policy in aid of agriculture; a complete revision of the taxation system; an adjustment of the educational policies to meet both rural and urban needs and modern conditions; improvement of transportation facilities, and a fostering of our industries to help secure more steady employment for all our citizens.

It is recognized that the economic life of this province is laboring under the handicap of adverse tariffs and a Liberal government at Edmonton would fight for a reduction in these tariffs, and for reciprocal trade relations with foreign countries, which would benefit the primary products of Alberta.

We particularly require a change in our monetary system, such as a National Bank owned and controlled by the people of Canada. For only by such National reform can we hope to obtain relief from our present gigantic interest burden. This reform can be obtained by all the provinces of Canada uniting with the Federal Government, and the efforts of all the people of Canada are directed at this time to that end.

Very essential to the welfare of the people of this particular riding is the proper development of our oil resources. This development as every one knows has been strangled by the U.F.A. government to such an extent that the very lifeblood is drained.

(Continued on Inside Page)

SOCIAL CREDIT MEETING

WEDNESDAY, AUGUST 21st

The last gun to be fired in the political race in the Little Bow constituency will be pointed at the electors in Vulcan on Wednesday evening of next week—the eve of election day, when J. J. McCaffery of Calgary, will address a meeting at the Vulcan theatre in the interests of Rev. Peter Dawson, Social Credit candidate.

ENTHUSIASTIC MEETINGS U. F. A. CAMPAIGN

In the Little Bow election campaign, O. L. McPherson, former minister of Public Works, and U.F.A. candidate, is reported to be making great progress with enthusiastic meetings at all points. All last week good rallies of voters were present at all meetings held; these meetings being held at the rate of two each day. This week Mr. McPherson addressed meetings at Mossleigh on Monday, Carmangay on Tuesday, and Lomond on Wednesday. There was a gratifying attendance reported for all these meetings. At all Mr. McPherson's meetings he asks for questions on all phases of provincial issues. These question periods result in a better understanding on the part of the electors and a swing to U.F.A. and stable, economical government. Announcements for meetings for the balance of the campaign appear in other columns.

YOUR VOTE

and Influence is Solicited for

Stanley Wyatt

Independent Conservative Candidate
For Nanton-Claresholm Provincial Constituency

Reasons for supporting me:

1. You will be voting for a homestead farmer and rancher.
2. You will be voting for a man that knows how to save other peoples' taxes. Every year while in office as Mayor of Claresholm, taxes were reduced.
3. You will be voting for a candidate who thoroughly understands the farmers' creditor arrangement Act. I advocate provincial assistance to speed up this business.
4. You will be voting for a man who has been hailed out, on one or the other of his places more times than he can remember, and who believes that some practical plan can be put in force to give people protection from hail.
5. You will be voting for a man who has had experience in dealing with relief, and experience in forest reserve business.
6. You will be voting for a man who was nominated as an Independent Conservative, and who is at liberty to support good legislation regardless of which party proposes it.
7. You will be voting for a candidate whose policy regarding unemployment is: Paying a livable pension to all people of age of 55 or 60, taking them off salaried positions and making those jobs available to the younger generation.

"WATCH THE FORDS GO BY"

JUN WHEAT CLUBS

The objectives of the junior wheat clubs are laid down as follows:

(1) To improve the quality of crops on club members' farms and in the district.

(2) To demonstrate the value of good seed and the value of good tillage practices.

(3) To educate Alberta junior farmers in the production and sale of improved seed.

(4) To bring together for discussion and demonstrations those interested in production problems and to foster the co-operative spirit through club organization.

(5) To develop leadership in community projects.

Club membership is open to youth between the ages of 15 and 22 inclusive, who actually reside on the farm where the seed plots are grown. The club must have at least 10 members living within a radius of 20 miles of the club centre. The maximum membership should not exceed twenty-five. Not more than two members of the same family are accepted for membership.

It is a matter of general knowledge throughout the West that the big hope of the future insofar as overseas markets for Canada's wheat are concerned, lies in the maintenance of the quality of the product grown in the western provinces. Alberta junior wheat clubs are giving invaluable assistance in the maintenance of this quality because they are providing a source of supply of excellent seed wheat throughout the length and breadth of the province. Ninety-five per cent of the seed produced by these clubs is disposed of in the immediate vicinity of the clubs.

AUTOS MAY RUN WITHOUT ANY GAS

Will This Revolutionary Discovery be a Realization Shortly

The Toronto Telegram recently made the following announcement:

Brain child of a Toronto inventor, an automobile that will run without gasoline, that will cost 10 cents to run 1,000 miles and that positively cannot go wrong, will slip silently down the runways from an American automobile factory next summer—completely revolutionizing the automobile transportation.

The inventor, Edgar Wood, was in Toronto for a few days on a flying visit from Detroit.

Be it understood, definitely, this is no pipe dream. The patent has been disposed of to a well-known Detroit automobile firm, who would not accept \$5,000,000 for it as it stands, it is claimed. The invention, secretly installed in a heavy passenger car, has been tried out successfully on American highway. From a dead stop the car achieved a speed of 80 miles an hour in less than 26 seconds.

The automobile is powered on a battery of secret design and construction, which will supply current to operate four electric motors, one for each wheel. Except in the individual motors, the car will have no transmission, no differential, no universal joint.

Thirty thousands of these batteries for the Canadian output of gasless automobiles are in process of construction in Toronto while in Hamilton 10,000 special tires have been ordered of a type that will withstand the terrific friction which the take-off imposes.

The battery has already been tried out very successfully with an airplane, which, silent as winged death, is capable of 25,000 miles of continuous flight at a cost of less than \$2.50 for battery refills. Several test flights have been undertaken out of Detroit Mich., under conditions of rigid secrecy.

Secrecy is necessary in the operation of the airplane and in the test runs of the automobile, on account of hostility of the oil companies, to whose business operations the gasless machines are a distinct future threat.

An Evening Telegram representative obtained an exclusive interview with Edgar Wood, inventor of the battery, who after a flying visit to Toronto and Hamilton to supervise construction of the batteries and tires, has returned to Detroit.

He spent a number of years perfecting his battery, which has overcome the weight factor which would handicap ordinary batteries powered to the required voltage. After perfecting the battery, he attempted to dispose of the patent locally, but was unsuccessful and as a result, transferred his allegiance temporarily to the U.S., where efforts to dispose of

NEW TIMES

New times demand new measures and new men.

The world advances and in time outgrows.

The laws that in our father's day were best;

And doubtless, after us, some purer scheme

Will be shaped out by wiser men than we,

Made wiser by the steady growth of truth.

—James Russell Lowell

With the Wits

"Does your father preach the same sermon twice?" "Yes. But he holds in different places."

"How do you do, doctor." "Pardon me, but I don't remember meeting you before." "Why, you were the one who took out my appendix." "Oh, I beg your pardon. I didn't recognize you from the outside."

Two Scots were having a drink in a bar. Said one seriously: "What's yer great ambition, Jock? Is there any one thing in the world you'd like better than another?" "No," said Jock, hopefully, "another would just suit me fine."

his revolutionary invention met with almost instant success.

"But," he said, "I'm still a Canadian, and I'm not going to take out American citizenship."

"We tried out the batteries on a heavy car outside of Detroit. We did not change the appearance of the body of the trial machine in order to confuse possible snoopers."

"We burned the tread completely off the tires in the first take-off when from a dead start, we got up to 85 miles an hour in 26½ seconds."

"That start decided two things—First, the tires would have to be of special construction. Second, manual control of the automobile would be too dangerous, because the slightest extra pressure on what would correspond in this car to an accelerator would send the machine flying."

"So we have fixed up an automobile starting equipment, operated by a manual button. The driver will press the button; the car, always under control, will do the rest."

"Each wheel has its own separate motor. This will obviously remove difficulty in snow drifts or on ice."

"The car will take the very minimum of upkeep. It will be necessary to take it into a garage, three or four times a year, for greasing motors and steering columns. The spring will be set in rubber."

"The weight of the battery (550 volts) will be 164 pounds, with an added 38 pounds for the container for the charge."

"The car will be practically noiseless, except for the noise of the wind. And when they come on the market, they will be in two price classes—\$500 for the lighter model car and up to \$5,000 for the heavier models."

Mr. Ward intimated that the electrical company manufacturing the battery to his specifications was buying up enormous quantities of the necessary materials in order to prevent cornering the market.

"Actually," he said, "the construction of the battery is so simple you wouldn't believe it possible. And the material can be bought in any drug store in the city."

The greatest difficulty the innovation faces, he admits, is the hostility of the oil and gasoline companies.

"The company which is manufacturing this car," he said, "has no ties with any of the oil interests and there are no inter-locking directorates to interfere with the manufacture."

"Is it Henry Ford?" he was asked. "I can't tell you anything yet," he replied.

Neither would he release information for publication as to where the batteries capable of 500 continuous hours without refilling are built, though he privately informed this writer.

"But," he concluded, "this car will be the fall offering of a well known Detroit automobile manufacturer."

Edward Ward, when seen by this interviewer, had just arrived by train from Detroit. Bespectacled, of intelligent appearance and speaking cultured English, he wore the ordinary clothes of a mechanic. Asked why, he said, "I'm going out to the factory here."

He did not seem to be very excited over the prospects of a million dollars, but he did seem very earnest, very sincere and very sure that his gasless automobile is the transportation of the future, starting next August.—Taken from The National Rural Letter Carrier.

HOW TO BALLOT

Explanation of the Single Transferable Ballot Used in Provincial Elections in Rural Divisions

The ballot used in the provincial elections is called the Single Transferable Ballot, meaning that voters express their choices, if they so desire, by use of the figures "1," "2," "3," and so on according to the order in which they prefer the various candidates. Voters must not use the "X" in these provincial elections. To do so makes the ballot invalid and it is thrown out by the returning officer. Voters must indicate their first choice by the use of the figure "1." If they like they can stop there and their vote is called a "plumper." But it is well to exercise the right of choice and mark the figure "2" opposite the name of their second preference, and if there are enough candidates in the field to justify it, the exercise of a third choice by use of the figure "3" opposite the name of their third preference. The exercise of preferences is largely dictated by the number of candidates nominated. If only two candidates, the figure "1" is enough; if three candidates, the figures "1" and "2" are advisable. If four candidates, choices extend to "3" and so on.

The purpose of the Single Transferable Ballot is to make certain that the candidate finally elected really represents the choice of the voters as expressed in their first, second and third preferences. For that reason, voters should exercise at the very least their second choice in the coming election. These second choice votes may decide the election in this constituency.

Method of Counting

There is nothing intricate in the preliminary count of ballots in this system of voting. The first choice votes are given first consideration. If any one candidate has a clear majority of first choice votes over all others combined, he is elected forthwith. But in case no such majority is obtained on the first count, the candidate having the least number of first choices is dropped out and his second choice votes are considered and allocated to the others still remaining in the field according to the way they are marked. If this does not result in the election of one candidate by a clear majority, then the next lowest man is dropped and his second choice votes considered and allocated. This process is continued until the final count is between two candidates only, of whom one is sure to be declared elected.

An Illustration

To illustrate the method of counting, say that there are four candidates in —Brown, Jenks, Jones and Smith. On the first choice votes, Brown gets 1100; Jenks gets 1000; Jones gets 900; Smith gets 800. Smith, being the low man, is eliminated. His ballots are looked over for second choice and result like this: Brown gets 200, Jenks gets 300, Jones gets 300. The standing then is: Brown 1300, Jenks 1300, Jones 1200. Jones is eliminated. His first choice ballots are examined for second choices and found to give Brown 350, Jenks 550. The standing then is: Brown 1650, Jenks 1850. Jenks is thereupon declared elected, as he has a clear majority of first and second choices combined over Brown.

LOCAL NEWS ITEMS

A. S. "Scotty" Love a former resident was a visitor here on Tuesday.

Miss Ethel Campbell returned to Vulcan on Tuesday from a holiday spent at Sylvan Lake.

The Bow Valley Resource reports that the coyotes are bothering the turkey ranchers west of Mto.

Miss Mary Catherine Arney is visiting at Arrowwood with Mr. and Mrs. Frank Arney.

Dr. and Mrs. M. C. Burke were callers to a number of Vulcan friends this week.

Mrs. John Tuttle, a former citizen of Vulcan, was a week end visitor with friends.

Mr. and Mrs. H. L. Greene and family are holidaying at Sylvan Lake.

Clifford Johnston of Bassano is a visitor this week at the home of Mr. and Mrs. R. W. McFarlane.

Mrs. Jim Marshall and son, Junior, returned to Vulcan during the week end from a holiday spent at Banff.

Howard McKay of Edmonton, is visiting with his parents, Mr. and Mrs. J. A. McKay in the Reid Hill district.

Mrs. Dave McAfee and daughters returned to Vulcan on Tuesday from a holiday spent at Edmonton and Alberta Beach.

Mrs. J. Dobbs Jr. and daughter Marlene left recently on a holiday to Seattle and other Pacific coastal points.

Frank Wilson, a former Vulcan resident, stopped off on his way through town by motor to renew several old acquaintances.

J. Carpenter of Lethbridge, has accepted a position as clerk in the Vulcan branch of the Jenkins' Groceteria Ltd., replacing Bruce White.

J. K. McLean, secretary-treasurer of the Municipal District of Marquis with Mrs. McLean and family, are at present time holidaying at various provincial points.

Dr. G.M. Carson, Nurse Woodward and H. Dorrington motored to Lethbridge on Monday evening to hear the address delivered by Hon. H. H. Stevens.

Tanned and healthy looking the scouts and cubs of the Vulcan troop and pack returned during the week end from a camping trip spent near the vicinity of Cameron Lake in Waterton Lake National Park. They all report a great outing.

A. R. Knox, stationmaster at the Vulcan C.P.R. station has received notification of his move from here to Coronation, Alberta. Mr. and Mrs. Knox will shortly leave for their new place of residence. The incoming agent, as yet, has not been named.

Robert Lundgren and Fred Craig, two Vulcan young men, returned on Monday from Waterton Lakes National Park. They made the complete journey to and from by bicycle. They left town on August the first, and had a holiday teeming with adventure. During the early stages of their holiday someone stole the grubstake they carried. This left them in narrow circumstances, but they pulled through with "flying colors," even with a mainly "brain food" diet.

Message to Electors From L. H. Stack

(Continued from Front Page)

ed out of all the independent companies with the result that almost our entire oil resources are today in the hands of a monopoly.

The U.F.A. road policy for the Little Bow constituency has been sadly deficient. During the summer months, what is now generally known as "government tourists," traverse our gravelled highway daily. In very many instances, world is repeated which is unnecessary and useless, and I strongly advocate a patrol force on our gravelled highway, particularly during the winter months, when life and property are greatly endangered by icy and drifted roads. I need only refer you to the horrible loss of life and property which has occurred with our own riding because of the almost criminal neglect of a proper patrol system.

In the dry areas of this riding farmers are continuously hauling water in tanks for miles over almost unpassable roads, and I believe that a water supply and other necessary relief should be provided for these people.

Old Age Pensions should not be on the basis of a pauper's dole, as they are at the present time, but should be so planned that an adequate old age pension should be provided without the necessity of causing every old age pensioner to divest himself or herself of any little property that he may possess.

I believe that our laws should be such as to tend to honesty of our citizens rather than to suggest to them ways of becoming dishonest.

You have an opportunity in the coming election to unite your efforts to those of all the other provinces of Canada, to not only ask for but to demand from our dominion government the necessary monetary reform as above referred to, which will easily make all these things possible, without adding to our already colossal debt burden.

I ask you not to be misled by the Aberhart theory of Social Credit. It can only lead us into chaos. Unsound as the Douglas' system of Social Credit might be, the Aberhart plan does not even confirm with it. Although the Douglas Social Credit theory has been advocated in many countries. It has not been adopted by any one of them. Social Credit as advocated by Aberhart is fantastic; it is intended to so mislead and so misdirect the people as to prevent them from exercising sound and logical reasoning. Real money by the thousands of dollars is being transferred out of Alberta at the present time by those who have studied Aberhart's Social Credit. These men are able to see the results. Do not follow blindly. Think!

You will be serving, not only all the people of this province, but all the people of this dominion, if you will mark your ballot (1) for the Liberal candidate, and I earnestly request you to consider very seriously our present plight before marking your ballot otherwise.

Sincerely yours,
L. H. STACK

The official nomination for Little Bow was held on the 12th instant, Mr L. H. Stack, K.C., as Liberal candidate. Those nominating Mr. Stack were:

A MAN'S PRAYER

Teach me that sixty minutes make an hour, sixteen ounces one pound and one hundred cents one dollar. Help me so to live that I can lie down at night with a clear conscience, and untroubled by the faces of those to whom I have brought pain.

Grant that I may earn my meal ticket on the square, and that in giving it I may do unto others as I would have them do unto me. Deafen me to the jingle of tainted money and blind me to the faults of the other fellow, but reveal to me my own.

Guide me so that each night when I look across the dinner table at my wife who has been a blessing to me, I will have nothing to conceal. Keep me young enough to laugh with little children and sympathetic enough to be considerate of old age. Then when comes the day of darkened shades and the smell of flowers—make the ceremony short and the epitaph simple: Here Lies a Man—

CALGARY BOARD of TRADE
TAKES STAND ON
SOCIAL CREDIT

IT having been represented to the Calgary Board of Trade that people were looking to it for some statement regarding Social Credit, the Council of the Board after prolonged and careful consideration of the arguments advanced for and against the proposals, has decided to submit the following as its considered conclusions on the subject:—

1. The proposals must necessarily involve crushing taxation entirely beyond the capacity of the people of Alberta to pay.
2. Any attempt to fix just prices can only result in incredible confusion and paralysis of business to the detriment of every producer and consumer.
3. The suggestion that dividends can be paid out of cultural heritage and undeveloped natural resources is impracticable and impossible.
4. The Social Credit monetary proposals will lead to a condition similar to that which occurred in Germany, involving the Province, the farmer, the wage earner, and others, in financial disaster.
5. The Social Credit proposals will isolate Alberta and render it impossible for either the farmer or the business man to buy or sell to advantage.
6. Finally, such an experiment as is outlined by the Social Credit proposals will lead to chaos, and entail great suffering from which the province would not recover for many years.

FACTS ABOUT ENARCO MOTOR OIL

Only two major oil companies operate lubricating Refineries in Canada. The Canadian Oil Companies, Limited Refinery at Petrolia, Ontario, is one of the best equipped lubricating refineries on the Continent.

ENARCO MOTOR OIL sells in the United States at the same price as motor oils which are selling in Canada at an average of forty cents per gallon more.

The additional cost of higher priced oils sold here covers import duty and jobbers' profits.

Every gallon of ENARCO MOTOR OIL sold in Canada is refined at Petrolia, Ontario, and sold direct to our dealers. We save you the duty and the jobbers' profit.

ENARCO MOTOR OIL is scientifically refined from the highest grade paraffine base crude, in one of the best equipped refineries on the Continent.

ENARCO MOTOR OIL is thoroughly de-waxed.

Don't mistake price for quality. ENARCO MOTOR OIL will satisfactorily lubricate any make of car, truck or tractor, at a saving to you.

Remember that few, if any, of the Motor Manufacturers today specify any particular oil. They know there are many good oils and we are certain if you enquire the will recommend ENARCO MOTOR OIL.

When next buying motor oil, ask yourself this question: "Am I getting value for my money or is about one-third of my money going to import duty and jobbers' profits?"

ENARCO MOTOR OIL is put up in gallon and quart cans sealed at our own Refinery. This gives you clean oil, and guaranteed measure.

Try ENARCO the next time you need motor oil.

**REWARD WHEAT**

Last year, our Reward wheat was degraded from No. 1 and from No. 1 Hard down to lower grades for the reason that a percentage of the kernels showed a bronze or green color. This discoloration, it has been found, was caused by the Reward wheat being cut on the green side. Apparently Marquis and Garnet can be cut when slightly green. Reward, however, cannot. Farmers are recommended, therefore, to consider allowing their fields of Reward to ripen thoroughly before being cut.

W. I. Conference

(Continued from Page 1)

men are accepting the challenge today," said Mrs. Thompson.

Mrs. F. G. Grevett, who spoke on the high lights of the Federated convention, took her listeners in fancy on a trip to the beauties of Prince Edward Island with its historic environment.

Mrs. J. P. Ferguson, provincial president, in a bright and entertaining address dwelt on the lighter side of the convention.

Prior to the election of officers, Mrs. Thompson presented Mrs. Hagerman, the retiring convener, with a gift of a charming little eight-day clock on behalf of the constituency and in token of their appreciation of her services. Mrs. Hagerman feelingly expressed her thanks and her enjoyment of the three years in office.

The following chairmen of standing committees were elected for the ensuing year:

Education and Better Schools—Mrs. A. J. Kennedy, Vulcan.

Legislation—Mrs. J. D. Hagerman, Kirkcaldy.

Agriculture and Canadian Industries—Mrs. S. B. Brown, Good Deeds.

Home Economics—Mrs. Norman Erskine, Lomond.

Canadianization and Immigration—Mrs. C. Broderick, Vulcan.

Child Welfare and Public Health—Mrs. J. Chester, Barons.

League of Nations—Mrs. M. L. Todd, Thigh Hill.

Handicraft—Mrs. C. L. Kukendall, Vulcan.

An interesting display of handicraft was on exhibit under the supervision of Mrs. Ulrich and Mrs. Watkins.

Champion and Thigh Hill branches were hostesses to the delegates and visitors at tea, served in the lower hall at the conclusion of the conference.

An invitation to meet in Vulcan next year was accepted.

G. G. Coote, U.F.A. Candidate, Macleod

G. G. Coote, M.P., was accorded unanimous nomination as the U.F.A. candidate for Macleod Constituency at the convention held at Claresholm on Wednesday afternoon. In the twenty minute interval which lapsed, before nominations closed, no other name was suggested, and it was quite evident that delegates were of one mind in their confidence in Mr. Coote.

The delegates numbering 150 were from all parts of the riding (124 men and 46 women). There were also a large number of spectators.

During convention proceedings, Snow Sears brought in a resolution that Mr. Coote affiliate himself with the H. H. Stevens' platform. This resolution brought the most spirited discussion of the afternoon, and was definitely defeated. The majority favored giving Mr. Coote a free hand, trusting to the good judgment which he had manifested during the fourteen years of service to the constituency. One speaker suggested that Mr. Stevens' party is the "new" party and if its aims were the same as the U.F.A. or Progressive, why should Stevens not enlist under the Progressive banner, instead of the Progressives merging under Mr. Stevens.

At any rate, the convention majority was not in favor of "instructing" Mr. Coote in any way.

The afternoon address covered federal legislation during the past session. Mr. Coote spoke at some length on matters of special interest to the riding. He explained terms of the marketing bill, and also referred to the bill sponsored by him regarding the reduction of interest. He regretted that so much of the most important legislation is so frequently left to the last of the session, when it is dealt with all too hurriedly.

At the evening meeting the hall was filled, and the speakers were Premier Reid, Mr. Coote and Gordon Walker, M.L.A.

Mr. Coote spoke briefly on federal matters. Premier Reid gave an excellent address on the past legislation, and contemplated program of the U.F.A. government if again returned to power. Mr. Walker spoke largely on the rural telephone situation and on the conservation of gas at Turner Valley.

About nine delegates were present from this part of the riding, reporting a very interesting and satisfactory meeting, with Mr. Coote ready to enter the coming contest with vigor and a reasonable measure of confidence.

McPherson Attacks**Social Credit**

(Continued from Page 1)

difficulty in collecting ten or twelve million.

Mr. Aberhart has repeatedly said he could get the amount required from the natural resources, but has never explained how he could do it. Our natural resources are coal, some oil, undeveloped wheat lands, fisheries, etc. Eastern Canada can buy American or Welsh coal cheaper than ours because of high freight rates. Our present mines can produce three times as much as we can sell. Until the railways lower the freight rates, neither Mr. Aberhart nor anyone else can get the basic dividends out of our coal mines.

Dealing with Mr. Aberhart's second proposal, namely, to get it out of thin air, by making credit entries in a ledger and issuing non-negotiable certificates, Mr. McPherson said other countries had tried this and failed. In Germany after the war, the inflated currency lost purchasing value so rapidly that in the end it took 1,000,000,000 marks to buy what one mark had bought before the war. In other places the results had been disastrous.

Mr. McPherson said that with foreign countries bonusing their farmers to raise wheat, our markets are increasingly limited. He reminded his hearers that if the U.F.A. government had not been successful in urging Ottawa to peg the price of wheat no one knows to what low level it might have fallen. Unless the Dominion guarantees the price this fall, we may again see 1933 prices.

"You must choose between Mr. Aberhart's promise of a just price in non-negotiable certificates, or the certainty of a guaranteed price by Ottawa," the speaker warned his hearers. "It is a decision fraught with grave consequences to every business man as well as the farmers. You cannot have Mr. Aberhart's just price and assistance from the Dominion Government at the same time, any more than you could sell the same load of wheat to two different elevators."

Mr. McPherson said that Liberal speakers are carrying on a provincial campaign by promising banking and monetary reforms which they know belong to the Federal field. He said it was amusing to watch Mr. Howson rushing around promising many things which only the Dominion has power to do and yet his chief, MacKenzie King, is making no such promises and never has.

He said McGeer, last year in Calgary, had said that Brownlee had betrayed the common people when on the Banking Commission, by joining with Lord MacMillan and other financiers in their report. Mr. McPherson condemned this as an utter falsehood, and said anyone who investigated for himself, would find that Mr. Brownlee had brought in a signed minority report, urging the setting up of a nationally owned central bank.

The Liberal party also condemned the government for not balancing the budget. The answer, Mr. McPherson said, was quite simple. Look up the records of the past ten years and you will find that every year Alberta has had a \$100,000,000 wheat crop, the government has balanced its budget. Every year the wheat returns have fallen below \$100,000,000, the government has had a deficit. It is the wheat crop of Alberta which governs the amount of revenue the province collects, and the Liberal party nor no other can alter this situation unless they cut down vital public services, such as roads, school grants, mothers' allowances, etc.

On Wednesday night Mr. McPherson will speak at Lomond; on Thursday he will be at Milo, accompanied by Geo. Coote, M.P. for Macleod Federal Riding; Friday, Mr. McPherson speaks in Arrowwood and Monday night in Vulcan.

HOSPITAL NOTES

Mr. and Mrs. Harry Connolly of Lomond are being congratulated on the birth of a daughter at the municipal hospital on Tuesday, August 13th.

Friends of Mrs. Mary Johnston of Champion will be pleased to hear that she is making satisfactory recovery.

Miss May Bateman and her brother Gled were both patients in the hospital this week having their tonsils removed.
